SPELLING BETTER FOR SCHOOLS

Build a School That Loves Words.

A spelling and vocabulary learning platform for modern schools: interactive word games, spelling competitions and continuous English practice, with free resources for every teacher.

In the classroom

A spoken spelling bee for the whole class with the free browser Spelling Bee Host; live app rooms of 2–4 players for small groups, joined with a 6-digit code.

Beyond the classroom

Independent practice in the app: Spelling Bee Simulator, Audio Quiz, flashcards and word games, plus printable homework and five-day plans.

School competitions

Class, grade and school spelling bees with the Host, printable rules, score sheets and certificates. Inter-school events are planned, not yet running.

Teacher toolkit (free)

Worksheet makers with answer keys, a read-aloud spelling test generator, lesson plans and classroom games, plus resources for every grade from preschool to grade 12.

Free resources for every grade

Weekly word lists, classroom games, worksheets, lesson plans and a live-game plan for each grade from preschool to grade 12, at spellingbetter.com/for-teachers/grades/. A suggested progression, not a formal curriculum.

Good to know

- Website tools and printables are free for every teacher, with no sign-up.
- Custom word lists work in the website tools and the Spelling Bee Host; the app uses its own lists.
- Students create their own accounts; please do not send student data in enquiries.
- Website tools offer American and British voices; app battles use American recordings.

Partnership

Become part of our growing school partnership initiative: institutional licensing, spelling bee programmes and English learning activities today; Knowledge Partner recognition and inter-school competitions are planned.
