Spelling Better for Teachers

Weekly Spelling Challenge Planner

Primary and middle school teachers, tutors and homeschoolers

How to use this planner

For practice, students can use the free word lists and online spelling test at spellingbetter.com.

1. Choose one spelling pattern or word family for the week, or one per day for older students.
2. Pick ten words that follow the pattern. Include a few words students already know and a few new ones.
3. Plan one short activity per day (10 to 15 minutes is enough).
4. End each day with a quick check: three to five words spoken aloud, written on mini whiteboards or paper.
5. Use Friday's check to see which words need more practice next week.
